The Maine Seed Potato Program

Certification Program:

A staff of six seed potato specialists, with years of experience in both field and tuber inspection, conduct our certified seed inspection program. Our regular seed potato specialists each has an area with which they are thoroughly familiar, and they work very closely with the 90 growers who produce Maine Certified seed potatoes.

Post-Harvest Test:

All seed lots produced in Maine must successfully pass a post-harvest test for the seed to be certified. The number of samples from each seed lot submitted for testing depends upon the number of acres grown. Specific requirements for the test may be found under Certified Seed Regulations on page two. These tests are conducted by the Division of Animal & Plant Health, and are conducted at the Certification Laboratory in Presque Isle, Maine. All **varieties** will be Laboratory **ELISA** tested for PVY & PLRV infection.

ELISA Test sample sizes / Fees

0-4.9ac (200Tubers) \$180

5-40ac (250Tubers) \$200

>40ac (250Tubers+10Tubers/ac over 40) \$200

\$1/Tuber over 250

Generation Program:

Maine has a limited generation program that restricts production of seed potatoes to 5 years in the soil. Field Year 5 seed potatoes are not eligible for certification but can be sold as seed for table stock or processing use. This requires that Maine seed growers constantly update their source of seed in order to provide the most vigorous, disease free seed potatoes possible.

Maine Seed Potato Board:

Legislation was passed in 2009 transferring oversight of this Board from the Department of Agriculture to the Maine Potato Board. The group consists of eight members plus the Commissioner of Agriculture or his designee, and is responsible for guiding Maine's seed improvement work. For sixty-five years at their isolated Porter Farm, the Board has produced foundation and nuclear seed for sale to Maine's Seed potato growers.

"Rules Relating to Certification of Seed Potatoes":

All regulations applicable to Certified Seed Potatoes are in the Department of Agriculture, Conservation & Forestry's "Rules Governing Certification of Seed Potatoes in the State of Maine". Copies are available upon request from the Division of Animal & Plant Health, Maine Department of Agriculture, Conservation & Forestry, 28 State House Station, Augusta, Maine 04333. These rules are also located at the following website:

<http://www.mainelegislature.org/legis/statutes/7/title7ch401sec0.html>

Bacterial Ring Rot:

The # symbol printed after the generation number of a seed potato lot in this directory denotes said seed potato lot passed all the requirements of the Maine Seed Potato Certification Program but was produced on a farming operation on which Bacterial Ring Rot was detected in 2021.

Field Generations for Seed Potato Shipments:

On January 1, 2002 The Potato Association of America recommended that North American Seed Potato Certification programs use a uniform Generation designation, in addition to their regular Generation designation. The designation "FY" stands for "Field Year", represents the number of years the seed has been produced in the soil.

FY4

FY5 (Grow out)

Limitation of Warranty:

The Maine Department of Agriculture, Conservation & Forestry, Division of Animal & Plant Health and its employees **MAKE NO WARRANTIES OF ANY KIND**, either express or implied, including the **IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE**, as to the quality of the seed or quality of the crop produced from the certified seed potatoes. Certification represents only that the seed potatoes were inspected and certified in accordance with the requirements of Maine Laws and Rules Governing the Certification of Seed Potatoes in the State of Maine.

Intellectual Property Rights:

Certain varieties may be protected under plant variety protection (TM), (PVP) utility patent, or other intellectual property laws. Productions of these varieties may require a license or other permission of the variety owner and it is the responsibility of producers to ensure that appropriate permissions are obtained. Any information provided in this directory regarding the protection of specific varieties is provided for informative purposes only and is not intended to act as a substitute for official sources of such information.

Certified Seed Regulations

FIELD INSPECTION REQUIREMENT:

Fields entered for Certification shall receive at least two field inspections spaced approximately one month apart. A third, and additional inspection for Bacterial Ring Rot will be made after the second inspection and before the completion of harvest.

FIELD INSPECTION TOLERANCES:

Maximum tolerances during field inspection are as follows:

Disease or Condition	First Inspection	Second Inspection	Third Inspection
Leafroll	2%	1%	N/A
Mosaic	3%	2%	N/A
Total Virus	3%	3%	N/A
Varietal Mixture	1%	0.25 %	N/A
Potato Spindle Tuber	Zero	Zero	N/A
Viroid			
Bacterial Ring Rot	Zero	Zero	N/A
Root Knot	Zero	Zero	N/A
Nematode			
Blackleg			
FY1	N/A	N/A	0.1%
FY2	N/A	N/A	0.2%
FY3	N/A	N/A	1.0%
FY4	N/A	N/A	2.0%
FY5	N/A	N/A	2.0%

Bacterial Ring Rot, Potato Spindle Tuber Viroid and Root Knot Nematode.....No Tolerance

Any field, which according to the Maine Department of Agriculture, Conservation & Forestry's sampling methods exceeds the maximum field inspection tolerances will be rejected from Maine's Seed Potato Certification Program.

SHIPPING POINT INSPECTION:

In order to receive State of Maine seed potato tags or bulk shipping certificates, Maine Certified and Foundation seed potatoes are required to be inspected by an authorized Maine Seed Potato Specialist at the time of packing and must meet the requirements of the Maine Seed Potato Grade. Maine's seed potato grade is among the strictest in the country, even surpassing grade requirements established by the federal government. Seed potatoes, which fail to meet the requirements of the Maine Seed Potato Grade will not be considered certified and will not be issued seed potato tags or bulk shipping certificates.

POST-HARVEST TEST REQUIREMENT:

All varieties, classes and field years of seed potatoes must be Post-Harvest Tested to be eligible for certification, except as specified below:

- (i) The Post-Harvest Test requirement is waived for seed potatoes and any variety of seedling grown on a aggregate of no more than one acre by any grower, provided that such seed potatoes are not to be sold as seed potatoes during the year that the requirement is waived.
- (ii) The Post-Harvest Test requirement is waived for Field Year 1 seed providing that such seed potatoes are not sold as seed during the year that the requirement is waived.
- (iii) The Post-Harvest Test requirement is waived for seed potatoes of any variety and field year for out of state export that meet the requirements of (2.9.(a)). Seed lots must be entered for Post-Harvest testing immediately after harvest as defined by the Department, or the samples will not be eligible for post-harvest testing.
 - a. Certified Seed Class - Only lots showing 5% or less total virus (Mosaic and Leafroll) will be designated as Certified Class seed potatoes.
 - b. Foundation Seed Class - Only lots showing 1/2% or less total virus (Mosaic and Leafroll) will be designated as Foundation Class seed potatoes.
 - c. Foundation or Certified seed samples will be lab tested at the following rates: 200 tuber sample for 0-4.9 acres, 250 tuber sample for 5-39.9 acres, 250 tuber sample plus 10 tubers for each additional acre over 40 acres. The sample(s) must be representative of the field and/or stored seed potatoes tested.

It is advised that lots over 80 acres be broken up into multiple samples. This, however is not a requirement of the program.

¹The purpose of this table is to express equivalency of terms used by various certification agencies for seed potatoes harvested from a series of successive field plantings. For specific criteria relating to disease tolerances and other requirements, the reader is referred to the certification regulations of the agency in question.

²The first field planting utilizes laboratory-tested stocks which may be tissue-cultured plantlets, greenhouse-produced minitubers, stem cuttings, or line selections. Contact agencies for details as to types of stocks planted in their programs.

³Terms used by agency for seed potatoes for a particular year in the field: C = certified, E = elite, F = foundation, G = generation, N = nuclear, PE = pre-elite.

⁴If lots originate at Cornell-Uihlein Farm, the first three generations (G1-G3) are also designated by a (U) to denote source.

⁵FY = Field Year

⁶FY = Foundation Year

Prepared by the Certification Section of the Potato Association of America.

Revision Date: 04/2020

2021 Seed Certification Potatoes in Maine

Below are the varieties and acreage of each which have met all field requirements for certification in Maine as prescribed by the Commissioner of the Department of Agriculture, Conservation & Forestry. (This does not include Aroostook Farm or growers own seed plots.) All lots are subject to a further inspection at time of grading. Certification tags will be issued by the Seed Potato Specialists for lots which meet the official grades for Maine Certified Seed and will receive final certification only after the Post-Harvest Test showing 5% or less virus diseased plants.
